

# THE WISDOM HIGH TIMES

A Wisdom High International School Chronicle

Proud to share that our basketball team secured the **1st Runner up** position at **Namo Chashak Basketball Match**. It was a remarkable achievement of their hard work and dedication that led to the glorious victory!

A Table Tennis Tournament was organized by K.V.N NAIK, from 23rd February to 25th February 2024, Following students from SMC Campus secured these positions:

**Janhavi Kalsekar** of Grade 9 secured 1st position in U/15 Girls & Runner up position in U/19 Girls Single's event .

**Sharvari Kasabe** of Grade 6 secured Runner up position in U/15 Girls & 3rd position in U/19 Girls Single's event.

**Tanish Bramhecha** of Grade 8 secured Runner up position in U/15 & 3rd position in U/19 Boys Single's event.

**Om Redekar** of Grade 4 Secured Runner up position in U/11 Boys Single's event.

## Pre-Awards Ceremony

GRADE 8 TO GRADE 12 GOC campus

GRADE 8 SMC Campus

At the Pre-Awards ceremony of sports events, the students were encouraged for their participation and pursuit of excellence through the diverse sports programmes available at the school.

## Book fair:

The school's Open House featured a Book Fair, showcasing diverse literature and academic skill based books. Students and parents browsed through the books, fostering a literary atmosphere, enhancing their educational experience.

## Jersey Day

Jersey Day, along with the Breakfast with buddies brought a burst of joy to the students, who were dressed in their beloved sports team jerseys.

## Sports Day

Splendid torch burn brightly at WHIS Sports Day

The Sports Day at WHIS was an exuberant celebration, brimming with energy and excitement. It featured a range of events from march past to thrilling relay race and intense tug of war.

The Earth House dominated Sports Day, showcasing unity, skill and comment, securing well-deserved victory at SMC campus.

## World Radio Day

On the occasion of ' **World Radio Day** ' scripting and recording of the story of radio was done by the teacher. Students enjoyed the radio played by the school's RJ.

## Vasant Panchami Celebration

Information about Vasant Panchami was shared with students. It marks the beginning of the transition period from winter to spring. It is the festival dedicated to goddess Saraswati, who is the goddess of knowledge, language, music and all arts. Saraswati Pooja was done by students, who were dressed up in yellow colour dress.

## Shivaji Maharaj Jayanti

Information about the great Maratha king was shared with the students in the form of Historical drama performed by the middle school section students. This was done through Powada rendition and energetic dances, highlighting his multifaceted achievements in education and administration and carrying out his legacy of valor and leadership.

**Multicultural Day**

Grade I to VI students produced a research project related to different cities, states of India. They created a visual presentation on their topics and got articles and food items related to the topics. The theme stretched over a month giving students an opportunity to explore different cultures in depth.

**Marathi Diwas Celebration**

On this day the faculty members came together dressed up in traditional Maharashtrian attire to honour Maharashtra's rich heritage and understand the history of Marathi language through recitations and discussions of the significance of the Marathi Diwas.

## National Science Day

A Science station was set up in the Small atrium. Teachers along with the students conducted easy, yet interesting science experiments in the classes, which ignited a spark of inspiration among the young thinkers, innovators and problem solvers.

## Business Bunnies Expo

Wisdom High Group of Schools stole the spotlight at the Trending Stories event at Tree land (A project by ABH developers) From captivating DIY craft corners to mesmerizing classical dance, singing and music performances, we dazzled the audience throughout. Ms.Nilufer Chavan, CEO of Wisdom High Group of Schools, graced the occasion with her presence as Guest of Honour at the event!

## Science Exhibition

Kensington Club, Nashik had hosted a Science Exhibition on February 27, 2024, Celebrating Science Day. Various school students from all over Nashik participated in the activity.

Our students showcased STEM concepts through working models, applying trial and error method, creativity and explaining the concepts they had studied.

## Rotary Club Event

The students of WHIS, both SMC and GOC campuses, embarked on an enriching journey to BLVD for the event '**Ek Diwas Sammelan**' in partnership with Rotary Club, Nashik. The students contributed with some captivating singing, dance performances along with various art activities, fostering a sense of joy and inspiration.

## Perseverance

You all know how difficult it is to focus on things and have perseverance in our work. It is a lifelong habit that perseverance teaches you. Many people get distracted by others or people distract them on purpose. Some people even get discouraged if they fail. We all know the popular people around us and there is a secret key which they have got and that is 'perseverance'. It is a key to success.

Perseverance means a continued effort to do or achieve something despite difficulties, failure or opposition. A person can be said to be the one with perseverant work if he or she are hardworking and finishing what is started, despite barriers and obstacles arise. It is one of the main qualities that are required for success. We can have a great example like Thomas Edison. Edison was homeschooled because he was not performing well in studies. Still he never got discouraged and made great discoveries for the mankind. Now many people look up to him. We can also be perseverant by setting small goals and focus on it to achieve it. Always keep supportive people and aura around you and practice gratitude.

By developing a sense of efficiency or the belief in our ability to overcome challenges with relentless hard work will lead to a satisfying life, perseverant nature and success. Avoid being with people who you think can discourage and ruin your target and determination. The world is humungous and not everyone is going to win. So, failure can be acceptable and we should always learn something from it as everyone says.

## Translating books to screen

The topic relates to the evolution of Adapting Books into Digital screen experiences.

Need for today's Digital age.

Covid time has been a very difficult time for the whole world. Many people struggled and lost their jobs. The whole world fell down on their knees and every soul was helpless. This was the time when people started exploring their gadgets like computer, laptop, smartphone, tablets. The concept of online schooling was introduced, though with great difficulty in rural and remote areas. Some students didn't have the facility of gadgets to attend online classes

New dimensions evolved with the rise of E Books and Digital Media. To begin with each and every child enjoyed the fresh experience of online schooling.

Discussing the Pros and Cons of Digital Books

### PROS OF DIGITAL BOOKS

- **Convenience:** The Digital books can be accessed instantly from any corner of the world with an Internet Connection.
- **Portability:** Readers can carry an entire library in their devices without the bulk and weight of physical books.
- **Customization:** We can edit the book at any point and add some graphics or animations which makes the book look attractive and fun to read.
- **Cost Effective:** E-books are often cheaper than physical books and many classics and public works are available for free, making reading more affordable.

### CONS OF DIGITAL BOOKS

1. **Lack of Tangibility:** As the covid pandemic has ended we want to regain the feeling of holding the paper book with rough surfaces which I guess everyone loves. We miss the sensory experience of smelling and feeling the pages.
2. **Screen Fatigue:** Reading through the screen is incredibly harmful for our brain, eyes as well as our mental health as the radiation rays coming from the screen directly affects our eyes and brain.
3. **Dependency on Technology:** Digital books rely on electronic devices, which can run out of battery or become obsolete, thereby disrupting the reading experience.
4. **Distractions:** Digital devices offer numerous distractions like notifications, social media, and internet browsing, which decreases focus.

In conclusion, the choice between digital and physical books depends on individual preferences and reading habits.
