

THE WISDOM HIGH TIMES

A Wisdom High International School Chronicle

Congratulations!

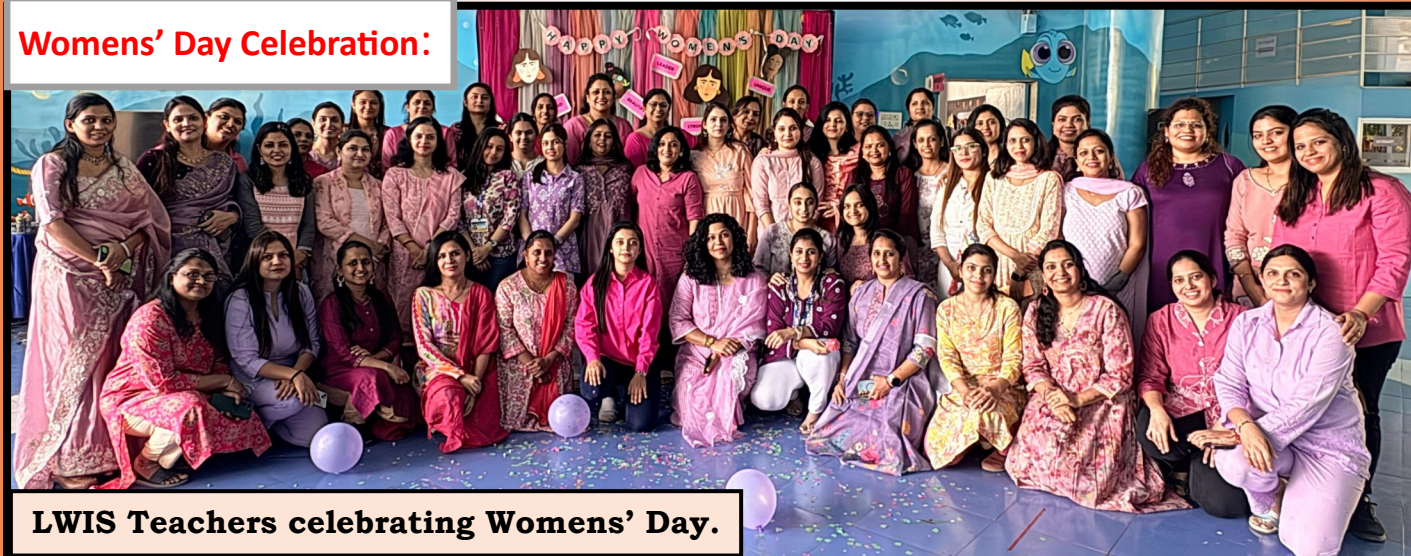

Wisdom High International School hosted the enlightening *TED-Ed Student Talks*, amplifying youthful voices and catalyzing thought-provoking discourse. Students articulated original ideas with eloquence, ingenuity, and conviction, making the event a dynamic showcase of intellectual curiosity and transformative expression.

Sr. No	Student's Name	Campus	Competition	Result
			Interschool Level Achievements	
1	Ms Hrida Bafna	Gr 3 SMC	Nashik Schools Sports	Gold Medal in Relay
2	Ms Cherika Jain	Gr 3 SMC	Association Swimming Competition	Bronze Medal
3	Mast Agastya Thakkar	Gr 2 SMC	Nashik Schools Sports Association Basketball Matches	Silver Medal and Best Player trophy
4	Ms Durva Patil	Gr 3 SMC	WESKO Cup Karate Championship	Bronze Medal
5	Ms Mukta Kulkarni	Gr 2 GOC	Interschool Aqua Meet at DPS School	3rd place
6	Ms Saanvee Mhaske	Gr 5 GOC	Flash Math Auditory Math Contest at Vapi, Gujrat	1st Runner up
7	Mast Sparsh Bangar	Gr 8 SMC	Ashoka Mahasangram	2nd place
8	Mast Arya Naval	Gr 8 SMC	Interschool Football	
9	Mast Arnav Darade	Gr 6 SMC	Competition	
10	Mast Viraj Jadhav	Gr 8 SMC		
11	Mast Vidhant Patil	Gr 8 SMC		
12	Mast Sarvesh Desale	Gr 6 SMC		
13	Mast Veedit Khairnar	Gr 6 SMC		
14	Mast Advay Date	Gr 5 SMC		
15	Mast Atrey Pilodekar	Gr 6 SMC		
16	Mast Ved Kulkarni	Gr 6 SMC		
17	Mast Kushagra Suryavanshi	Gr 6 SMC		

WHIS SMC, Under -15 Boys Team bagged 2nd Position in Ashoka Mahasangram Football Inter-school Competition. It was a commendable performance, that showcased their hard work, team spirit, and dedication!

Womens' Day Celebration:

LWIS Teachers celebrating Womens' Day.

GOC Service Staff celebrating Womens' Day.

Womens' Day was celebrated with warmth, honoring our dedicated teachers and staff with beautiful flowers.

Holi celebration:

The Phoolon Ki Holi celebration at LWI, SMC and GOC was filled with colours !

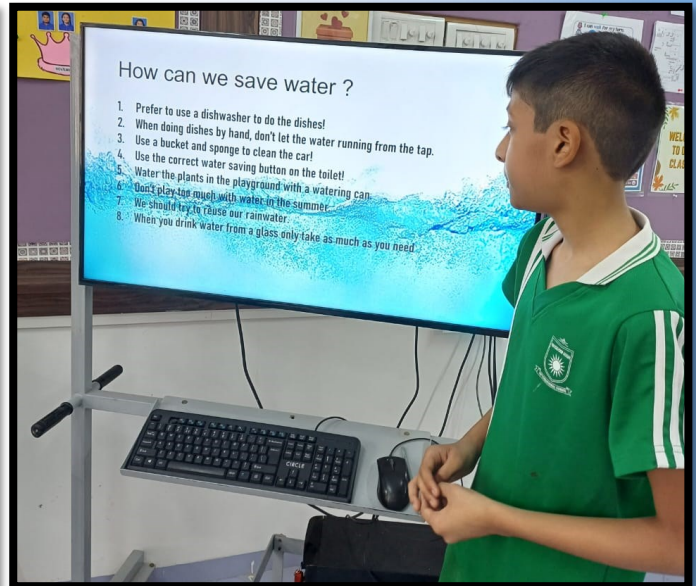

World Shoe Day:

WHIS celebrated World Shoe Day by organizing a shoe donation drive. Students and staff donated gently used shoes, promoting kindness and raising awareness about the importance of giving to those in need.

World Water Day:

On World Water Day, the school organized an awareness drive across all grades. Grade 5 students visited lower grades, sharing tips on water conservation and encouraging everyone to save this vital resource.

World Wildlife Day Celebration:

Our kindergarteners celebrated World Wildlife Day with a puppet show. Through colorful puppets and stories, they learnt about animals, their habitats, and the importance of protecting wildlife. A day of fun and learning!

Gudi Padwa Celebration:

At WHIS, Gudhi Padwa was celebrated with enthusiasm in a common assembly. Children wore traditional attire, and teachers and students shared the festival's significance, highlighting the Gudhi as a symbol of prosperity.

Farewell:

The Grade 10 and 12 farewell evening was filled with heartfelt speeches, stunning performances, and exciting games. Special titles and awards were presented to highlight students' unique talents, celebrating their achievements and creating unforgettable memories.

Artillery Center Visit:

Students visited the Artillery Center, where they explored various military equipment and learnt about artillery operations. The visit provided a hands-on experience, offering insights into defence technology and the importance of artillery.

Printing Press Visit:

Students visited a printing press to learn about the printing process. They observed how books and newspapers are printed, gaining insight into the technology and techniques behind media production.

Fire station visit:

Our young learners visited the fire station, where firefighters demonstrated rescue techniques, fire safety, and equipment use. The children explored fire trucks, heard sirens, and watched a live water hose demo.

LWI Nursery Pool Party Fun!

The Nursery kids had a blast at their exciting Pool Party! Dressed in colorful swimwear, they splashed, played with floating toys, and danced to lively music under the bright sun. A day full of laughter and joyful memories!

Design and Technology Activity:

Students participated in exciting Design and Technology activities like Egg Drop, Shoe Design, Micro Flat Designing, and Bridge Making. Each task encouraged creativity, teamwork, and problem-solving. From protecting eggs to designing smart spaces and sturdy bridges, students applied engineering concepts with innovation and enthusiasm, making learning hands-on and fun!

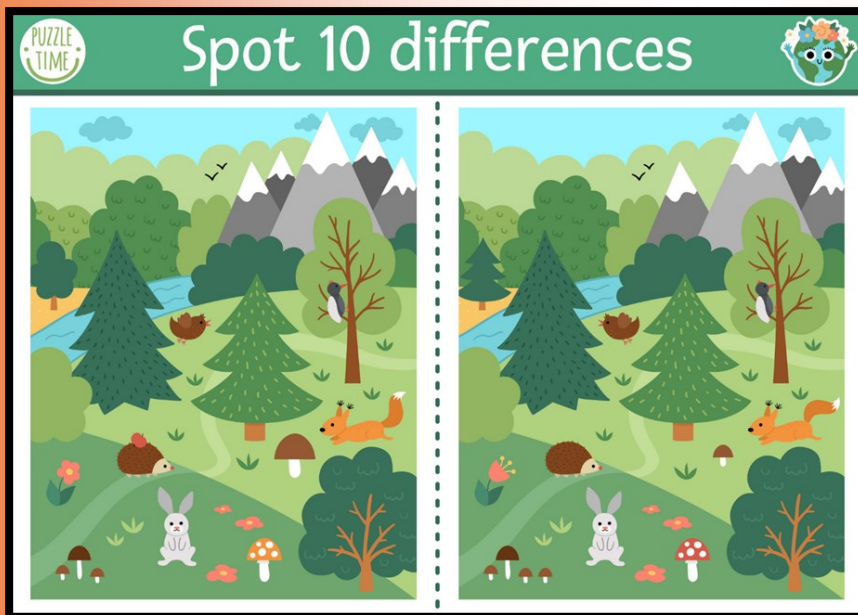

Lahangewadi Visit:

The Lahangewadi village visit was a remarkable celebration of women and environmental awareness. For International Womens' Day, an 'Mata Palak Melava' was held, featuring an awareness program for mothers on topics like cervical cancer. The Ideal Mother Award was presented to a deserving Mother.

Kyrgyzstan – The Hidden Gem of Central Asia

When travelers think of breathtaking landscapes, rich history, and unique cultures, countries like Switzerland, Japan, or Italy often come to mind. However, one of the world's most underrated travel destinations is Kyrgyzstan, a stunning Central Asian country brimming with natural beauty, tradition, and adventure.

Nestled along the historic Silk Road, Kyrgyzstan is a land of majestic mountains, crystal-clear lakes, and endless green valleys. Over 90% of the country is covered in mountains, making it a paradise for hikers, climbers, and nature lovers. The Ala Archa National Park, just a short drive from the capital Bishkek, offers breathtaking treks, while Song-Kul Lake, a high-altitude paradise, reflects the sky like a mirror. The world-famous Issyk-Kul Lake, the second-largest alpine lake, is surrounded by snow-capped peaks and golden beaches, making it a must-visit destination.

What makes Kyrgyzstan truly special is its nomadic heritage. Even today, many Kyrgyz people continue the centuries-old tradition of moving with the seasons, living in yurts, and herding livestock. Visitors can experience this unique lifestyle firsthand by staying with a nomadic family, tasting local delicacies like kumis (fermented mare's milk), and watching kok-boru, a thrilling horseback game that dates back centuries. The country also celebrates traditional festivals like Nowruz, marking the Persian New Year, where locals enjoy music, dance, and special dishes.

Kyrgyzstan is also home to rich historical sites, such as the Burana Tower, a remnant of an ancient Silk Road city, and Tash Rabat, a well-preserved 15th-century caravanserai nestled in the mountains. The capital city, Bishkek, offers a unique blend of Soviet-era architecture, bustling bazaars, and vibrant street life, where visitors can explore the Osh Bazaar for local spices, handicrafts, and traditional Kyrgyz textiles.

Despite its incredible landscapes and cultural richness, Kyrgyzstan remains off the radar for many travelers. Unlike crowded tourist hotspots, it offers an authentic and peaceful escape, where visitors can connect deeply with nature and tradition. The country is also incredibly affordable compared to other mountainous destinations, making it a great choice for budget-conscious adventurers.

With its stunning scenery, warm hospitality, and unique experiences, Kyrgyzstan is a hidden treasure waiting to be explored. Whether you seek adventure in the mountains, cultural immersion, or simply an off-the-beaten-path destination, Kyrgyzstan is a place that deserves to be on your travel bucket list.

Shaping minds, Touching hearts: The Enduring impact of Teachers!

Not everyone has the patience of a saint, a heart of gold, and dedication without even a thought of the end. The dreams of every student begins with a teacher who believes in them, who tugs, pushes and leads them on to the next path to greater success. These lines might have touched your heart... I'm very sure you are thinking about your teachers. But do we give them the respect they deserve? No, right? This could be the reality if we would have the Gurukul system alive.

During the Gurukul system teachers were treated higher than gods. Do you know why? As teachers were confided in and adhered to by students and the parents too! Teachers were the only provenance of cognition at that time and they used to share every single drop of their expertness' ocean.

... But alas, those days are behind us now. In today's fast-paced world, teachers are often overworked, underappreciated, and forgotten. Their selfless efforts, their tireless dedication, and their unwavering commitment to shaping young minds are frequently overlooked.

It's heartbreaking to think that these guardians of knowledge, these architects of dreams, and these beacons of hope are not given the reverence they deserve. Their influence on our lives is immeasurable, and yet, they are often treated as mere mortals. But despite the neglect, despite the apathy, and despite the ingratitude, teachers continue to toil, to strive, and to inspire. They continue to believe in us, to push us, and to guide us towards a brighter future.

And that's what makes them truly special. That's what makes them heroes. So, let us take a moment to appreciate these unsung heroes. Let us thank them for their tireless efforts, for their unwavering dedication, and for their selfless love.

For in the end, it is not the politicians, the celebrities, or the business tycoons who shape our society, but the teachers. They are the ones who mold our minds, who shape our characters, and who inspire us to greatness. So, to all the teachers out there, we salute you. We thank you. And we honor you. You are the true heroes of our time.

The Boundless Magic of Reading....

Reading is not just about words on a page; it's about journeys to far-off lands, adventures beyond your wildest dreams, and discoveries that can change your life. A book is a gift that you can open again and again.

Imagine, holding a book in your hands. It might look ordinary, but within those pages lies a portal. When you start to read, something amazing happens. You're no longer in your room, or even in this time. You're transported! You might find yourself sailing the high seas with pirates, searching for buried treasure.

Or maybe you're exploring ancient ruins, uncovering secrets lost to time. Perhaps you're soaring through the sky on the back of a dragon, or walking through enchanted forests where anything is possible.

Each book is a different kind of magic. It's like having a key that unlocks countless doors, each leading to a new and exciting world. And let me tell you a secret: there's more treasure hidden in books than all the pirate's loot in Treasure Island! Think about it. In books, you can meet brave heroes, clever detectives, and wise wizards. You can learn about amazing creatures, discover hidden histories, and experience emotions you never knew existed. You can laugh, cry, and feel your heart race with excitement, all while sitting quietly in your chair.

When you read, you're not just absorbing information; you're building your own world inside your mind. You're creating pictures, sounds, and smells, and you're becoming a part of the story. You're exercising your imagination, making it stronger and more powerful with every page you turn. And the best part is, this magic is always available to you. All you have to do is open a book and let the adventure begin.

Reading is like having a friend who can take you anywhere and show you anything and there is no friend as loyal as a book. It's a gift that keeps on giving, a treasure that grows richer with every story you discover.

A reader lives a thousand lives before he dies, so explore the amazing worlds that await you in books. Let your imaginations run wild, and let the magic of reading fill your lives with wonder and excitement.

The Future of Artificial Intelligence

Artificial Intelligence (AI) is rapidly growing, and many people have started using it. Moreover, it is now transforming into major industries, and its future holds massive potential for growth. Robotics will advance significantly, but it may require a large workforce to manage and support its development.

The health industry will benefit greatly from AI, as it will contribute to improved surgeries, personalized treatments, and better dietary plans. In the future, even doctors might be replaced by robots. As technology moves forward, AI is becoming an essential part of that progress—it is evolving alongside technological advancements.

AI-powered robots and software are expected to take over many tasks performed by laborers and potentially dominate entire markets. While this transformation is underway, some industries may experience losses. However, experts believe that AI will create new job opportunities rather than simply replacing humans.

In my opinion, AI is also making a significant impact in creative fields. It is enhancing artistic abilities, such as in the case of the recent "glibly" trend—a piece of art that took a Japanese artist years to create, but AI was able to reproduce it in minutes, which was quite shocking. AI has also become skilled in content writing.

AI is one of the most life-changing technologies of our time, offering tremendous growth to enhance industries, improve lives, and inspire new ideas. However, its rapid advancement also brings challenges and concerns that must be carefully addressed. AI helps us gain knowledge on topics we may have never encountered before, and it also boosts human creativity.

In conclusion, the future of AI looks very bright, with great potential to bring both opportunities and knowledge together. AI will continue to simplify and improve our daily lives. It enables us to learn about new subjects and enhances our creativity in countless ways.

Ms. Neeti Bambardekar

Class of 2017-18

Bachelor's in Journalism, Media, PR & Communication
Whistling Woods International Institute of Film,
Communication, and Media Arts, Mumbai.

From the classrooms of Wisdom High International
School to the boardrooms of leading companies,
Ms. Neeti Bambardekar is a shining example of
ambition and success!

Academic Journey

Pursued Journalism, Media, PR & Communication at
Whistling Woods International Institute of Film,
Communication, and Media Arts, Mumbai.

Professional Milestones

Director at Seepra Refrigeration Pvt. Ltd
(2021 – Present)

Director at Tristar Equipments Pvt. Ltd
(2021 – Present)

Recognition.

Recently honoured as the '*Youngest Female Entrepreneur*' by *Maharashtra Udyog Ratna* — a well-deserved recognition of her dynamic leadership and entrepreneurial excellence! With her vision and determination, Neeti continues to inspire young minds to dream big and reach higher.

Wisdom High Group of Schools takes immense pride in her journey and wishes her continued success!
